

# Automotive Grade Hexa-Core Processor

For Driver Cockpit Infotainment System

### **Overview**

Allwinner's T7 ARM Cortex-A7 Hexa-core processor is aimed at the automotive infotainment market and is AEC-Q100 compliant. The system has integrated dual image processing, multiple interfaces and a dedicated ADAS acceleration engine for processing various driver assist features.

The T7 can be used as a multimedia/entertainment panel, electronic instrument panel, car navigation display or customized by the user depending on their preference.

## **Highlights**

- AEC-Q100 Certified
- CPU: 6-core ARM Cortex-A7 CPU
- GPU: Mali 400 MP4 Excellent processing performance and display
- Supports a wide range of 32-bit DRAM types and dynamic frequency scaling, considering the application bandwidth and power consumption requirements in multi-scenes.
- Multiple camera interfaces that support up to 8 high-definition cameras.
- Integrated ADAS acceleration engine improves the efficiency of processing ADAS algorithms whilst reducing the load on the CPU.
- Integrated dual image processor is suitable for more vehicle scenes such as DVR, 360° AVM.

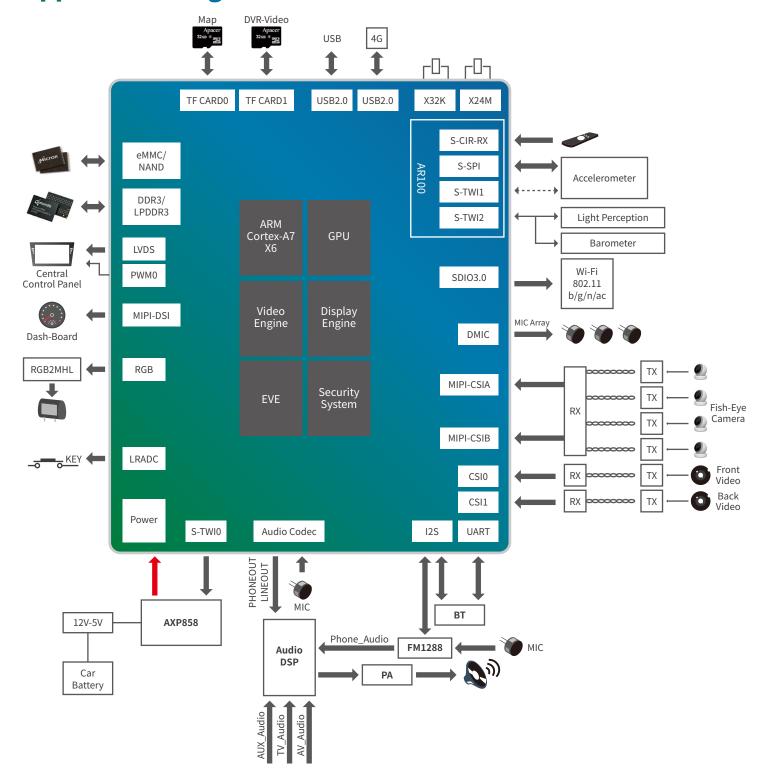

## **Feature List**

CPU	Hexa-core ARM Cortex™-A7 Processor
GPU	Mali 400 MP4
Memory	<ul> <li>Supports DDR3/DDR3L/LPDDR2/LPDDR3 up to 3GB</li> <li>Supports eMMC, SD card, NAND Flash, SPI Nor Flash and SPI Nand flash</li> </ul>
Video	<ul> <li>Supports video decoding up to 1080p@60fps with MPEG1/MPEG2/MPEG4/H.263/H.264/H.265/VP8/AVS/AVS+ multi-formats</li> <li>Supports H.265 MP video encoding up to 1080p@60fps</li> <li>Supports H.264 MP video encoding up to 1080p@60fps</li> <li>Supports input titled(128x32)/YU12/YV12/NU12/NV12/ARGB/YUYV multi-formats</li> <li>Supports Alpha blending</li> <li>Supports Thumb generation</li> <li>Supports 4x2 scaling ratio from 1/16 to 64 arbitrary non-integer ratio</li> </ul>
Audio	<ul> <li>Two audio digital-to-analog(DAC) channels</li> <li>Three audio analog-to-digital(ADC) channels</li> <li>Four audio inputs</li> <li>Two audio analog outputs</li> </ul>
Display	<ul> <li>Supports 4 lanes MIPI DSI up to 1920 x 1200@60fps</li> <li>Supports LVDS interface up to 1920 x 1200@60fps</li> <li>Supports 18-bit RGB interface up to 1920 x 1080@60fps</li> <li>Supports 1-ch TV CVBS output</li> </ul>
Camera	<ul> <li>Supports 4 channel CVBS input or 1 channel YPbPr and 1channel CVBS</li> <li>Supports 2 individual MIPI CSI camera control interface</li> <li>Supports 2 individual CSI interface, with 16bit data wide each other</li> <li>Builtin 2 image processors with HDR、3D de-noise、Sharpening algorithm</li> </ul>
EVE(ADAS)	<ul> <li>Detection Speed: 30fps(VGA)</li> <li>Supports 4 channel integral Image, processes 130 million features per second</li> <li>Supports up to 3 channel feature calculation</li> </ul>
External peripheral	<ul> <li>USB x 4 with USB OTG*1 and USB host*3</li> <li>UART*10/SPI* 3/TS*1/TWI*10/EMAC*1/CIR*1</li> </ul>
Package	PBGA 547 balls, 21 x 21 mm, 0.8 mm ball pitch

## **Block Diagram**

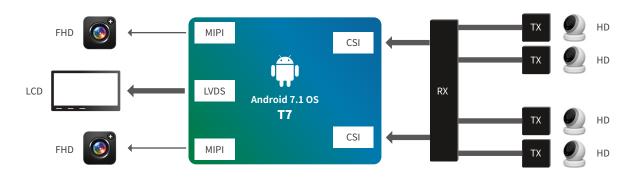

Video Engine	CPU Cortex-A7 x 6	GPU Mail-400 MP4	Connectivity	
Decode H.264/H.265 4096 x 2048@15fps/ 1080pe060fs/	MCU AR100	ADAS Acceleration Engine (EVE)	USB OTG×1	SPI×3
720p@120fps  Encode	Memory		USB HOST×3	CIR×1
H.264/H.265 1080p@60fps/ 720p@120fps	DDR3	System	USB HSIC×1	TS×1

#### **ABOUT ALLWINNER**

Allwinner Technology is a leading fabless design company dedicated to smart application processor SoCs and smart analog ICs. Its product line includes multi-core application processors for smart devices and smart power management ICs used by brands worldwide.

With its focus on cutting edge UHD video processing, high performance multi-core CPU/GPU integration, and ultra-low power consumption, Allwinner Technology is a mainstream solution provider for the global tablet, internet TV, smart home device, automotive in-dash device, smart power management, and mobile connected device markets. Allwinner Technology is headquartered in Zhuhai, China.
